Call to Action

Preserve Private Activity Bonds (PABs)

With the House and Senate now having passed their tax reform bills, our advocacy efforts should continue to ensure that the final tax bill takes the Senate position and retains the exemption for tax-exempt bonds.

Please keep up the pressure on House and Senate offices as we look ahead to conferencing next week of the House- and Senate-passed bills.

The **most immediate call to action** is to [contact your House Representative](#) and ask that they personally ask Speaker Ryan and Ways and Means Committee Chairman Brady to support the Senate position in conference as it relates to tax-exempt bonds.

The next call to action is to your [Senators](#) and ask that they continue to defend bonds during conference and oppose any effort to eliminate the tax exemption for PABs.

Tax-exempt financing provides a critical source of funding for a variety of important projects for non-profits across the state and across the nation. Please contact your congressional delegation today.

As always, please do not hesitate to call if you have any questions or would like to discuss this further.
